During this tour we will visit GGANTIJA Temples in Xaghra which were built and developed between 3600 and 2400 BC, making them among the earliest architectural planned facades in the world. We then proceed to Victoria which is in the centre of the island as well as being the centre of commerce. The Citadel is a medieval fortified town with massive bastions that date back to the 17th Century. In this city one can visit the Old Cathedral, the Archaeological Museum with exhibits from Neolithic times to Middle Ages and the Folklore Museums.
